

# TOM GRIFFITH, SPEAKS ON INTEGRITY

**Tom Griffith, President of Merchant Payment Services Was Invited to Speak to the Wright State University Raj Soin College of Business on Integrity**

On Wednesday September 28, 2011 Tom Griffith, spoke to a group of college students about Integrity in business. As a 2011 Better Business Bureau Eclipse Integrity Award Winner, Tom has learned the importance of doing business with Integrity.

Griffith shared some real life experiences of how integrity has paid off, as well as some not so great experiences of doing business with other companies who did not act with Integrity.

“Integrity is not only simple behavior modifications and choices, but rather, a part who you are”, Griffith said. “Nothing will enable a company to produce exceptional products, provide better services, build better teams and leaders and ultimately a stronger business, than having people of genuine integrity.”

Griffith left the students with a challenge to examine their motives beyond making money in business, and begin thinking about what they love to do, what they’re gifted to do, and how they can fulfill those two things in the field they pursue.

**Historically, credit card processors are on the top 10 lists of complaints with the BBB.** However, Merchant Payment

Services has not only, never had a complaint in over 20 years in business, but has stood head and shoulders above the competition as Integrity Award Winners.

Choosing to do business with Merchant Payment Services, is choosing to do business with a company you know will treat you fairly and honestly. “Culture will tell us that cutting corners is the way to get ahead but we’ve learned at MPS that the right decisions don’t always lead to quick short term gain, but ALWAYS lead to long term reward. Our goal is to keep our customers for life!”, Tom Griffith.

*Congratulations to  
Merchant Payment  
Services as the 2011  
Eclipse Integrity  
Award Winner!*
